

INNOSQUARE

supports companies
in their innovation projects

ACTIVITIES

Promotes the realisation of Research & Innovation projects of companies by :

- > the search for partners
- > the access to financing
- > the support for project management
- > the support for exploitation of the results

OBJECTIVES

- > Increase the number of collaborative projects carried out with companies
- > Dissemination of 2 to 3 model cases of intelligent transformation

Sectorial collaborative projects

These projects are intended to meet an innovative challenge, pre-competitive or creating value, expressed by several companies from an economic sector, in collaboration with academical partners

HOW ?

Upon request, INNOSQUARE supports project leaders in the realisation of projects

WHY ?

Companies benefit from the results and accelerate their pace of innovation

COLLABORATIVE PROJECTS

with support of
New Regional Policy

Multi-sectorial collaborative projects

These projects are part of the Research and Innovation Strategies for Smart Specialisation (RIS3), involving several companies and aiming at the transformation of existing resources in favour of the economic competitiveness of a region

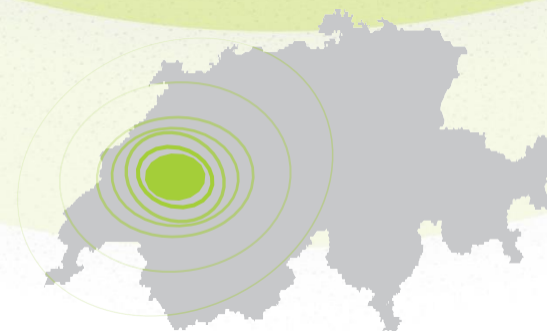

HOW ?

INNOSQUARE supports the project leaders and accompanies the realisation phases in a logic of intelligent specialisation according to the strategic axes of the canton of Fribourg

WHY ?

Companies create new economic activities by transforming existing resources and intelligent specialisation (bio-economy and circular economy) in collaboration with the Development Agency, high schools and public institutions

PARTNERS

SCOPE AND REGIONAL POLICY

INNOSQUARE is a collaborative platform operating in the innovation park of BlueFACTORY in Fribourg. The innovation projects supported are in line with the strategical axes that the canton of Fribourg has selected in its program of the New Regional Policy 2020-2023: the bio-economy, digital anchoring and Smart Territory.
